

**Comfort Rating**

The number of stars indicated provides an easy guide to the overall performance and comfort of the carpet cushion. The more stars the better the comfort.

**Maxbond™ Density**

Density is a key contributor to comfort, with Maxbond™ we only use high performance foams to ensure the best performance per kilogram. The number shown represents a nominal weight in kilograms per cubic metre.

**Thickness**

Thickness is a key factor to overall comfort, normally the thicker the better but this depends on the density it is combined with. The number shown represents a nominal thickness in mm.

**Quadmesh™**

Quadmesh™ is the type of webbing used in the product to add structural support. Dunlop Maxbond™ Carpet Cushion features high performing 7x7 Black Quadmesh

**Insulation**

Thermal insulation effectiveness is measured by a TOG rating. The higher the figure, the greater the insulating performance.

**Acoustic**

The ratings quoted show the noise reduction properties in terms of dB so that you can make comparisons between the different products. The higher the figure the greater noise reduction. Ratings are based on impact sound reduction.

**Recycle by Dunlop**

Dunlop Carpet Cushion is made of 90% recycled materials and is itself recyclable. Dunlop Flooring has an active program in place to recycle Dunlop Carpet Cushion which is sorted, cleaned, and then re-used.

**CRI Green Label Accreditation**

Dunlop Carpet Cushion is certified by the Carpet Rug Institute Indoor Air Quality Programme. This programme identifies products that have low VOC's which help promote superior indoor air quality.

**Dunlop Guarantee**

Dunlop Maxbond™ Carpet Cushion is guaranteed for the life of the carpet.

**Made in New Zealand**

Dunlop Carpet Cushion is proudly made in New Zealand by Dunlop Flooring Limited.

**Antimicrobial Protection**

Dunlop Flooring manufactures a range of carpet cushion options that include the addition of antimicrobial protection. The incorporation of antimicrobial protection solutions inhibit the growth of bacteria, mould, mildew and dustmites to help create a healthier home.

**Australian Standards Certification**

Dunlop Maxbond™ Carpet Cushion is certified to the Australian Standard AS4288:2003 for soft underlays. This is New Zealand's recognised standard as required by the joint Australian/New Zealand flooring installation standard AS/NZS2455:1.2007.
